## *Foundations Work Together to Establish North County Covid-19 Response Fund*

Coastal Community Foundation, the Leichtag Foundation and Rancho Santa Fe Foundation established an emergency fund to meet the rapidly changing and increasing needs in North County. The fund has granted \$541,000 to 29 nonprofit organizations.

Grantees have reported that greatest needs include food insecurity, unemployment/loss of income, homelessness, domestic violence, medical vulnerability, ineligibility for unemployment and government benefits, mental health concerns, and effects of school closures.

The Fund has a \$100,000 challenge from the Robert Wood Johnson Foundation. With continued community support, this fund will continue to support programs that impact North County residents. The grant committee bases its funding decisions on an organization's program/ service alignment with Fund priorities, financial stability, track record, leadership, and the capacities and skill sets it brings to its work.
